## Гладильные машины серии JOKER

 Rotondi's "JOKER" series of self-drying belt ironing machines with built-in lengthwise folding units are the most reliable option, in terms of yield and quality of ironing and folding, to be found on today's industrial and professional laundry market. The ironing system of Nomex belts that are able to resist high temperatures makes it possible to adjust the ironing temperature. On request, these calendars can be supplied with the laundry outlet either up front (standard wall type model) or behind (throughput model - optional).

The folding system provides the following operating alternatives:

- On 1 working line (for large pieces, such as sheets): 1-2 lengthwise folds.
- On 2 working lines (for medium pieces, such as tablecloths and tablecloth-guards): 1-2 lengthwise folds.

The ironing roller diameters are 600 mm and 800 mm, for working widths of 2100 mm, 2600 mm or 3300 mm. The machines are available with gas, steam or electric heating.
